

"Things turn out perfectly!"

We can cook a pizza in three minutes...an amazing time for a fresh, made-to-order pizza."

Brian Donoghue,
Director of Foodservice
Weigel Stores, Inc.
Knoxville, TN

A fresher way to prepare.

Opening its Tennessee dairy more than 50 years ago, Weigel's Stores, Inc. has since added 64 convenience store locations throughout the state. "When we needed new equipment to handle our menu expansion, Ovention had the oven that offered more flexibility and speed," said Foodservice Director, Brian Donoghue of looking to meet the needs of their growing consumer base. "Ovention's ability to make food so quickly with such efficiency was intriguing." Donoghue was sold on the Matchbox® 1718 after trying other options in their test kitchen. Donoghue loves the quality of product produced by his Ovention® oven, stating,

"It allows us to compete with a pizzeria, but not have our customers take up a parking spot for 15 minutes..."

This is a fresher way of preparing food, and it's a couple-minute transaction."

Making delicious the right way, right away.

The demand for delicious fresh-prepared food is higher than ever. From authentic flatbreads to roasted vegetables, our innovative and intuitive ovens cook foods better, faster – without the need for venting or hoods. Unparalleled cooking accuracy. Unprecedented operational efficiency. Unmatched culinary versatility.
